

Quick GIGS

The fastest, most transparent way for Indian businesses to get creative work made.

Business model • 12-month GTM • Operating plan

Vinayak Tower, Vibhuti Khand, Lucknow 226028

Creative work is needed weekly—but buying it is still fragmented

Slow hiring, vague briefs and unclear pricing create revision loops.

Freelancers lose time chasing leads and face unclear scope or payouts.

Agencies need overflow capacity without adding fixed headcount.

Wedge: speed + trust—not another directory.

One workflow from rough idea to approved work.

Describe: AI structures the request.

Match: verified specialists scored transparently.

Order: service amount + GST; escrow protected.

Deliver: progress, feedback and quality checks.

Approve: release payout after acceptance.

Start narrow: recurring content buyers with an urgent weekly

D2C brands: launch reels, paid-social creatives and UGC packs.

Agencies: white-label overflow and specialist pods.

Regional SMBs: starter gigs and social presence.

Creator-led businesses: podcast clips and repurposing.

A managed marketplace—not a list of profiles.

For Indian businesses that need creative work shipped this week, Quick GIGS turns a rough request into a verified match and

Speed: brief to shortlist in minutes.

Trust: verification, escrow and clear GST.

Fairness: zero creator platform fee and 100% of service subtotal.

Transparent pricing now; monetisation expands with trust.

One-off gigs: Starter, Pro and Studio packages.

Monthly plans: seats, allowance, SLA and one invoice.

Managed pods: dedicated specialists and reporting.

Future options: customer-side fee, add-ons and priority matching.

Guardrail: no creator deduction and no hidden customer fee.

Concierge first. Proof second. Scale third.

Weeks 1–2: instrument CRM, events, QA and creator rubric.

Weeks 3–8: founder-led matching and concierge pilot.

Months 3–4: case studies and delivered-work proof.

Months 5–8: referrals, partnerships, SEO/AEO.

Months 9–12: pods and controlled paid acquisition.

Five channels, each with a distinct job.

Founder outbound: D2C founders, agencies and marketing heads.

Referrals: buyers and creators after positive outcomes.

Partnerships: coworking spaces, accelerators and consultants.

SEO/AEO: reels, UGC, pricing, GST and escrow pages.

Proof content: delivered work and transparent maths.

Paid tests: only validated segments with CAC stop rules.

Measure approved, repeatable work—not vanity signups.

Lead → qualified: target $\geq 50\%$.

Qualified → first order: 15–30% concierge benchmark.

Median time to match: under 15 minutes.

On-time delivery: $\geq 90\%$.

Buyer rating: ≥ 4.6 / 5.

Second order within 90 days: $\geq 35\%$ by month 12.

Demand and supply grow together around real packages.

Recruit through LinkedIn, Instagram, referrals, creator communities and agencies.

Verify proof of work, category fit, availability, rate and turnaround.

Activate with a complete profile and first accepted brief.

Retain through clear scope, fair revisions, repeat demand and 100% subtotal payout.

The first 90 days prove the loop.

Weeks 1–2: choose three packages and instrument the funnel.

Weeks 3–4: recruit 30–40 specialists and contact 100 businesses.

Weeks 5–8: deliver manually, interview buyers and publish proof.

Weeks 9–10: improve onboarding and pricing pages.

Weeks 11–12: test one partner and one paid-intent campaign.

Pilot exit: 30 paid orders, $\geq 80\%$ on-time, 10 repeat opportunities and 5 case studies.

Scale when contribution and repeat are visible.

Illustrative average service subtotal: ■2,499.

GST shown separately; confirm treatment with a qualified adviser.

Creator receives ■2,499—100% of service subtotal.

Keep payouts, GST, refunds, processing, support and contribution separate.

Scale paid channels only when CAC payback is within three months.

Trust is the moat—and the operating risk.

Cold start → concierge matching, human callback and proof.

Quality variance → narrow categories, QA checklist and pause weak supply.

Scope creep → structured brief, deliverables and revision policy.

Paid CAC → pilot first and strict stop rules.

Tax/compliance → qualified Indian tax adviser reviews GST, TDS and contracts.

Build the loop before buying the scale.

Run a focused Lucknow/NCR-led concierge pilot serving India remotely.

Keep the customer promise simple and every number visible.

Protect the creator policy: zero platform fee and 100% service-subtotal payout.

Scale only after repeat orders, on-time delivery and creator activation are healthy.
